

Dear FCC Commissioners:

I am registering my strong opposition to the proposed relaxation in the rules for broadcast outlet ownership. This relaxation would undoubtedly result in another wave of broadcast ownership "consolidation." However, such consolidation flies in the face of the time-honored concept of the airwaves as the property of the American people. The proposed broadcast ownership changes will effectively limit the number of differing opinions available to the American people via their airwaves; consequently, I urge you in the strongest possible terms to reject any relaxation in the FCC regulations governing broadcast outlet ownership. Any other course of action can only be interpreted as an abdication of your primary charge--to fairly and democratically administer the public airwaves for the American people.
